

## AO-259A USci Proprietary Anti-Oxidant Package (50% diluted in US-352P)

AO-259A is an amine free specialty blend of antioxidants designed specifically to reduce discoloration. Specifically, when used at levels between 0.2% and 0.5%, discoloration of the foam has been observed to be significantly reduced.

### Physical Properties

Property	Value	Unit
Viscosity @ 25°C	900	Cps
Specific Gravity @ 25°C	0.9 – 1.0	
Water content	< 0.1	%
Hydroxyl Number, as KOH	84	mgKOH/g
Flash Point (Open Cup)	230°C to 260 °C	

### Additional Information

AO-259 is a skin sensitizer and can harm aquatic life. This should be considered in its storage and handling. It should not come into contact with strong oxidizers.

The properties above are typical only and should be used as an example only. For more detailed product information, please refer to the Safety Data Sheet (SDS).
